Dr. Freeland's contributions to our community are immeasurable. He was instrumental in establishing paramedics and a structured EMS system in Lake County in 1972 and remained actively engaged in EMS education until his passing. As EMS Medical Director for many years, and as a trusted physician in private practice, Dr. Freeland cared for countless patients and families with dedication and compassion.

We are profoundly grateful to have known him, and his impact will continue to live on in the lives he touched. He will be deeply missed.
